Things to keep in mind

- We bill and ship using the exact addresses you give us, so it's important to be accurate to keep your shipments from being delayed.

The screenshot shows the ShopBakerHughes.com website. The header includes the Baker Hughes logo, the ShopBakerHughes name, a search bar, and navigation links for Products, Rentals, Markets, Knowledge Hub, and Support. The breadcrumb trail indicates the user is in the Offfield & Industrial Chemicals section, specifically under Corrosion Inhibitor, viewing the Cronox Corrosion Inhibitor - Versatile treatment for Corrosion control.

The product page features a large image of a black drum with a white label. To the right of the image, the product name is listed as "Cronox Corrosion Inhibitor - Versatile treatment for Corrosion control". Below the name, a description states: "The Baker CRONOX™ corrosion inhibitor is a watersoluble, amine-based corrosion inhibitor which can be used in a variety of applications. This product is effective against corrosion across a wide range of flow regimes and oil and water ratios. It is highly transportable to the water phase and controls corrosion in both CO2 and H2S environments."

On the right side of the page, the pricing information is displayed: "Your price \$262.74 per 55 (US) Gal Drum". Below this, it notes "Pricing applicable only for USA locations". There is a quantity selector set to 1, and radio buttons for "Pickup" and "Delivery". Two buttons are present: "Quick quote" and "Add to cart". At the bottom of the pricing section, it states "Lead time of 4 to 6 weeks" and "Shipping may impact lead time".

You can also create a quote for multiple products once you've added them to your cart. You will see the "Create Quote" option in your cart.
